Apollo plast

NEW

Modular traffic lights with card or led lamp, Nylon glass-fibre body, made in light material to be used with suspended or light structures.

Joint lock

Modular composition

IP: 67

Stagnoli introduces the new Apollo plast traffic light with Nylon glass-fibre body to make it light and suitable for installation in suspended structures..

The traffic light is modular, so you can rig up the lights as you like, and has the possibility to fit both the 18 LED cards or 45 LED lamp.

ATTENTION: Apollo plast traffic lights respects European law 2005/32/CE article 3/2.

All models are available in 230Vac and 24Vdc versions with lens \varnothing 120mm.
